

Protocol #10

Team Consensus: Issues in Portfolio Planning

What kind of portfolio might you propose to your school, if any?

1. Each team member should take 3-5 minutes to place a mark on the following scales to indicate the extent of your agreement with each statement.
2. When the team is ready, transport the marks (using initials or names if you wish) to a single page;
3. As a group, look first for areas of clear agreement, items in which the marks or initials are close together;
4. With items where there is less agreement, discuss the issues involved until the group can adopt a collective stance.

Should be required for graduation

Strongly Disagree	Strongly Agree

Should require a set format

Strongly Disagree	Strongly Agree

Should list required components or items

Strongly Disagree	Strongly Agree

Should be organized around common standards

Strongly Disagree	Strongly Agree

Should contain only class-based evidence of performance

Strongly Disagree	Strongly Agree

Development and revision is the responsibility of one teacher

Strongly Disagree Strongly Agree

|-----|

One teacher should be responsible for assessment

Strongly Disagree Strongly Agree

|-----|

The school should store and protect student work

Strongly Disagree Strongly Agree

|-----|

Students must revise until they meet expectations

Strongly Disagree Strongly Agree

|-----|

Students should receive a grade that affects transcripts and GPA
